1 INTRODUCTION

1.1   REASON FOR CHANGE

ELATEC products are certified in numerous regions. It is important to distinguish between each reader and its variants. In many regions, each variant needs a dedicated certification. As a result, each variant needs a certification name which can be explicitly assigned to a product. To fulfill this differentiation, a new name convention will be introduced to the TWN4 Palon Square product line. Additionally to the certification names, the marketing names are also affected. The exact changes are described in the following chapters.
